Titusville Morning Herald.

All Sorts.

The Russians have a festival just before the breaking up of the ice on the Neva. The Emperor and everybody go on the ice, some one cuts a hole in it, and an officer hands the Emperor a glass of water, which he must drink every drop, and hand the glass back to the officer full of gold coin. Once upon a time the officer handed His Majesty a quart glass, and after that the size of the glass was prescribed by law.

Several car loads of stock hogs have arrived at St. Joseph, Missouri, from Illinois, within a few days, on their way to Andrew and adjoining counties in Missouri. The cause of this "Westward ho," movement is the failure of the corn crops in Illinois, and the medium or actually good crops in Western Missouri.

John Shively, of Nelson, Wisconsin, went into his field last week and opening a stack of wheat found it wet. He said he would look at the other, and if that was wet too, he would hang himself. It was wet, and he shot the top of his head off.

Mr. Curry, of Minneapolis, showed the *Tribune* of that city an ear of corn (a sample of a sixty-acre field) which is twelve inches long, bearing eighteen rows of corn, or a total of nine hundred and ninety-nine kernels on the ear.

Jacob Straub, a sixteen year old boy of Carlinville, Illinois, has been very much emaciated lately, but last week two doctors operated upon him for two hours, when he "yielded" a tape worm six hundred feet long, and now he feels better.

The lay of the poet and the lay of the hen are very much better than the lay of a lady on the shoulder of a man in public places of amusement.

Rabbi Joshua once met a boy who carried something in a covered vessel. "My boy," said Rabbi, "what have you in your covered vessel?" "If it was intended for you to know," replied the boy, "it would not be covered."

An ex-Union officer of high standing, lately arrived from Galveston, gives figures which show the ravages of the yellow fever to be unprecedented. At the time of General Griffin's funeral, out of the twenty-seven officers and four hundred and thirty-seven men on the rolls of the battalion stationed there, only four officers and twenty-four men could be obtained for escort duty.

Two gentlemen were conversing about wealth when one observed, "I don't care to be rich, but I would like enough so that I could live on four per cent. of my property." "I am not so ambitious; I should be satisfied with sufficient for two per cent. to maintain me."

During the war a lady passing from cot to cot through the wards of a hospital, was shocked to hear a soldier laughing at her. She stopped to reprove the wretched fellow. "Why look here, ma'am," says he, "you have given me a tract on the sin of dancing, when I've both legs shot off."

The Baltimore *American*, the leading Radical paper in Maryland, hoists the name of Grant for President in 1868. The Concord (N. H.) *Statesman* says that Gen. Grant may now be regarded as the next President of the United States; the conventional nomination and the November ballot being matters of form.

Berezowski, who attempted the life of the Emperor, arrived at Toulon on the 11th. As soon as he entered the precincts of the *bagne* the red jacket and green cap worn by those condemned for life were put on. A heavy chain was fastened to his left leg by a massive ring; he did not appear to suffer during the operation, and quickly rose, taking up the chain in his hand. The head was shaved in square; that is, one square perfectly bare, and on the next the hair is left about a quarter of an inch long. In spite of this disfiguring process and the green cap, young Berezowski had a look of distinction, and even an intelligent expression of countenance.

A gentleman from Memphis lost, while in Louisville, a shirt stud containing a diamond worth some $4,800. A Nashville detective recovered the gem in Nashville. It was set in a finger ring and belonged to a Mr. Williams, of Cincinnati, who gave it up with reluctance, as he had purchased it in Ohio in perfect good faith.

St. Stephen's Roman Catholic Church in New York, has the pretty little income of $50,000.

Two hundred pounds of salt are used for each ton of ore in the new California process of extracting gold and silver.

MISCELLANEOUS.

DR. SAGE'S Catarrh REMEDY.

PRODUCES PERFECT AND PERMANENT Cures of the *WORST CASES OF CATARRH* as HUNDREDS OF TESTIMONIALS from well known citizens and eminent physicians abundantly attest.

Thousands Suffer numerous attacks annually and many a large proportion of every year from *COLD IN THE HEAD*, which if not speedily relieved and cured, *generally results in CATARRH.* Dr. Sage's Catarrh Remedy will relieve the *Pressure and Pain in the Head* caused by sudden attacks of cold AT ONCE, and in a short time will cure the disease entirely.

One Hundred Thousand Persons annually die in this country of Consumption. There is the highest medical authority for saying that with fully one-half if not two-thirds of this number, the disease first commences as a CATARRH IN THE NOSE OR HEAD. The next step being to the *Throat* and *Bronchial Tubes.* Lastly, the *Lungs.* CATARRH CAN BE CURED *Bronchial Affections can be Cured*, but CONSUMPTION CANNOT, therefore it should be prevented while possible.

The Remedy which we offer to the afflicted for the cure of Catarrh, is the result of years of patient experimental research by the discoverer, who has been a practicing physician for the past TWENTY YEARS, and who will himself a great sufferer from Chronic Catarrh, until he succeeded in discovering this remedy which effected a PERFECT AND RADICAL CURE in his own and subsequently in hundreds of other cases of this distressing malady.

OFFICE AT THE RED PLANING MILL.

Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations, as regards the safety of handling, also the unprecedented force and power manifested by a skillful combination whereby the size of the Torpedo is lessened and the force many times multiplied and are now prepared to operate on wells with any of the above named explosives—either with our improved combination or our old Combination Torpedo, which has a recorded utility too well known to need mention here.

CAUTION.—The public is cautioned against employing any but the regularly authorized agents of this Company, since their patent, according to the recent decision of the Commissioner of Patents for the United States, covers the use of the Torpedo and all other explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights, and we shall hold land or working interests to a strict accountability for such infringements.
